

The Chicago Daily Tribune.

VOLUME XL.

SUNDAY, OCTOBER 24, 1880—SIXTEEN PAGES.

PRICE FIVE CENTS.

FAT MEN'S CONVENTION! AT THE PUTNAM CLOTHING HOUSE.

AS A REWARD for our labors to supply a long-felt want in furnishing FAT MEN WITH

EXTRA-SIZE CLOTHING,

Ranging from 42 to 54 inches. It seems all were determined upon giving us a bon-
e, and Monday and Tuesday marched to our store in squads of ten and fifteen to
show their appreciation of our exertions to serve them. And we have made it an
important study, and have perfected a system whereby we are enabled to furnish any
man of any height or size with a PERFECT-FITTING GARMENT. Probably no
house in the West has ever undertaken to supply this long-felt want, as it is a
well-known fact that men weighing from 300 to 500 pounds (owing to no Clothing
House ever having taken the matter in hand to furnish them) have been obliged to
patronize Merchant Tailors at enormous profits.

We now come to the front fully equipped with a stock of

Fat Men's Clothes AND EXTRA-SIZED SUITS AND OVERCOATS,

In every conceivable style, and our sales demonstrate to us that our labors in this
direction are appreciated. We have full lines of these large sizes to select from, and

TALL MEN, EVEN THOUGH THEY BE GIANTS,

Can be as well fitted at our store as the smallest boy. It will, however, be apparent
to all why we are enabled to furnish these enormous sizes in MEN'S SUITS, OVER-
COATS, etc., when for a moment you consider that we do not purchase our Clothing
from Tom, Dick, or Harry, but that every garment we sell is made in our own manu-
factory, under the superintendence of our Master Tailor, Mr. W. H. FURLONG,
through whose far-sightedness in originating these new styles and patterns, together
with his manufacturing facilities, has this missing link in the Clothing Trade been
supplied. To Fat Men, Tall Men, and Extra-Size Men trading with us is guaranteed
a saving to them of at least 33 PER CENT.

PUTNAM CLOTHING HOUSE,

small visits will add to the Republican vote in Cook county, and the confidence which the outcome and the superiority of the nominations have inspired.

Especially interested in the Republican in this county should be the large Republican who has been given this opportunity to be throughout the State, and the State majority to some figures. The Republicans have good material to work with in almost every and greater respect and constitute Democratic contestants in the State. The County Board, as a better than those made by the record of the County Republican auspices, is favorable contrast to the administration of county affairs "for Garfield" here and throughout the North will be a try to local triumph. But to advantages effective there and individual work, with offsetting the prostration of Harrison by Harrison for partisan

pass an examination in the rudiments of a plain common-school education and to present certain of perfectly good health from a physician and good moral character from a clergyman. At first about sixteen men will be admitted into the class of eight, and will be graduated each year, eight in the fall and eight in the spring.

The plan is thoroughly rational and practical. It is not at all experimental, but is precisely the system which has been followed in the schools of the country, and will be attempted here under the superintendence of one who has been a part of the system for many years. No more expense is required in hospital management than in a long time, and the progress of the trial will be watched with interest, not only by those immediately concerned in it, but by the medical profession and charitably disposed persons generally.

ASTRONOMICAL.

Chicago (TRIBUNE OFFICE), north latitude 41° 56' 30" N.; west longitude 42° 0' 30" W.; Washington, and the sun rises from the west of the moon's horizon limb, and the official time for lighting the first street-lamp in each circuit this evening, during the winter, unites a second source of account of bad weather. Also the following times for extinguishing the first lamp:

Day. Moon rises. Light. Extinguished. Oct. 21. 10:46 p.m. 5:20 a.m. 11:55 p.m. Monday..... 10:46 p.m. 5:20 a.m. 5:00 a.m. Tuesday..... 11:36 p.m. 5:30 a.m. 5:00 a.m. Wednesday..... 12:26 a.m. 5:40 a.m. 5:00 a.m. Thursday..... 1:16 a.m. 5:50 a.m. 5:00 a.m. Friday..... 2:06 a.m. 5:10 a.m. 5:00 a.m. Saturday..... 2:56 a.m. 5:30 a.m. 5:15 a.m. Oct. 22. 10:36 p.m. 5:10 a.m. 5:00 a.m.

The moon was in apogee last evening, and will be in her last quarter at 1:10 a.m. Tuesday.

The sun's upper limb will rise on Monday at 6:45 a.m. and set at 4:45 p.m. on Tuesday.

The sun's upper limb rises Friday next at 6:30 a.m. and sets at 4:30 p.m. and 4:45 p.m. on Saturday.

The sidereal time Thursday mean noon will be 12m. 47s. 25m.

Mercury will south Thursday at 1:12 p.m., and set at 5:30 a.m. He will attain his greatest elongation from the sun a week from Thursday.

Venus will south Thursday at 1:36 p.m., and set at 8:15 p.m. She is now an evening star, and moderate bright soon after sunset, when the sky is clear to the western horizon. About seven-eighths of her illuminated disc is now to the eye.

Mars will be in conjunction with the sun tomorrow, and after that will slowly pass outwards towards the position of morning star.

Jupiter will rise Thursday at 4:00 p.m., south at 10:15 p.m., and set at 12:30 a.m. He is now an evening star, and increasing his distance from the earth; it is now 100,000,000 miles. His apparent equatorial diameter is about 47 seconds of arc, or one part in 55 less than the greatest this year. Hence he is about one part in 30 less bright to us than during the first week in this month.

Saturn will rise Friday at 5:20 a.m. and set at 11:30 p.m. Friday morning. He will be in opposition to the sun last Monday morning. He is now 13° degrees further east than Jupiter, and the angle between the two is very slowly increasing. Saturn is an evening star. His apparent diameter is 185 seconds of arc, the greatest apparent diameter of his planet.

Twinkle, twinkle, little star,
How I wonder if my pa
Ever will repeat, and let
Arthur in the parlor set.

BOY'S CHANT.

The bright wind sweeps across the sea,
Carrying rain and wreath;

The maiden starts for the matinée
Wearing her sealskin sacque.

—Cottage Folk Lore.

"Young Wite"—In order to make a really first-class pumpkin pie you want to put enough ginger and molasses in to entirely destroy the taste of the squash. Pumpkin pie was formerly made of pumpkins.

Somebody's lips were close to mine;
With a roving tongue, a roving eye;

Rebuking and rosy, a sweet little mouth
Was suddenly, softly kissed.

Somebody's eyes looked up and frowned,
With a roving tongue, a roving eye;

"If kisses were wicked?" I asked my pet,
Then the eyes began to dance.

And smiling, the little maid answered
As I kissed them at her feet.

"They must be a little bit naughty,
Or they never would be so sweet."

—Phryne's Progress.

A Paris paper says that "the Prince de Talleyrand Périgord, son of the Princess de Sagan, is engaged to Miss Körigan, an American lady of great beauty, and who is the dowry of the prince." The following is the latest House of Representatives, Washington, July 5th, and printed in the *Bulletin of Saturday*, the 13th. The part referring to the Chinese question is as follows:

Garfield is as thoroughly averse to an invasion of China as of us. His anti-slavery principles would naturally make him a friend to us, as confirmed in his views by his experience in San Francisco in 1855, his account of which has been often called to him on this matter, and he always expressed the warmest sympathy with our cause. He is a man of great energy and will be expected to come before the House for discussion, he volunteered to speak in our defense, and I am sure he will do so, but the Democrats, as you remember, being aware of his intentions, by a parliamentary trick, delayed his speech, and he was not allowed to report the Bill, and this cut off debate. In like manner they refused all amendments to the bill, and the bill was passed without notice or notice to the Chinese Government. Gen. Garfield regards the Chinese immigration of Chinese as an evil of great magnitude. His only objection to the bill reported to the House was the desire to make the faith of the Government and to give a positive pronouncement that reasonable notice of our desire to modify our relations with her and our citizens who are subjects of her, and he was of the opinion that the Chinese were so easily mistaken as to the nationality of the young. America cannot boast the proud honor of being the mother of the Körigan in Ireland, the bright gem of the sea, takes the cake in this instance.

SUCCESSFUL INNOVATION.

The system of marking goods is that all can see and understand the price, and selling them without deviation, as adopted by N. Mason & Co., jewelers, Nos. 100, 102, and 104 State street, is meeting with a just appreciation and approval. Every body likes price in business and war.

It is a great innovation to sell goods at a uniform price to all, whether they are acquainted with the goods they are buying or are ignorant of their real value and obtain a good price for them. It is a great innovation to appreciate the force of a method which combines honorable dealing and equal justice. It inspires confidence and creates a cordial atmosphere between buyer and seller.

It is a great innovation to shake off the shackles of the past, and to make a new way in which to win the favor of those who will oppose us. It is a great innovation to be a success.

And, smiling, the little maid answered
As I kissed them at her feet.

"They must be a little bit naughty,
Or they never would be so sweet."

—Phryne's Progress.

SUCCESSFUL INNOVATION.

The system of marking goods is that all can see and understand the price, and selling them without deviation, as adopted by N. Mason & Co., jewelers, Nos. 100, 102, and 104 State street, is meeting with a just appreciation and approval. Every body likes price in business and war.

It is a great innovation to sell goods at a uniform price to all, whether they are acquainted with the goods they are buying or are ignorant of their real value and obtain a good price for them. It is a great innovation to appreciate the force of a method which combines honorable dealing and equal justice. It

SPORTING.

A Conservative's Views on
Base-Ball Innovations.

The Twenty-Mile Race—A Variety
of News for Horsemen.

BASE-BALL.

IN INNOVATIONS.

To the Editor of The Chicago Tribune.

CHICAGO, Oct. 23.—Now that the ball is transferred from the hands of the Bradfords, we are a pair of them to open the season of a question of proposed innovation.

The subject of innovations is one that interests the base-ball party very much, but is also one on which he is very conservative. When, for instance, two years ago it was suggested that the men left on base, it was the opinion of many that such a change should occur at the beginning of the next season, the bases on which they were left, intelligent patrons of the game regarded the suggestion of the new idea as an idiot's. It was a plain plain that such a change would make the game tedious, multiply indefinitely the catcher's work, and seriously diminish the chances of the weaker clubs, thereby diminishing the uncertainty of the game, one of the most pleasing features of the game.

The main features of base-ball may now be regarded as irrevocably settled. Thus, no one seriously talks of increasing or diminishing the number of players, the distance between bases, or the outs to an inn. The war between pitcher and catcher is a fruitful subject for the innovator and the base-ball legislator.

A little cool consideration will show that, even in pitching and batting, there is not much room for change, and that the wisdom of any change is to be left to the ball players.

Green Morris has purchased from F. H. Marsteller the 2-year-old bay colt Flyaway, by Longfellow, out of Platina, by Planet, her dam, Orestes, St. Christopher, and other stallions.

Blondine and Goldfinger are being driven to racing in the road in Boston by Mr. John Shepard, who has won a mile and a half over the Beacon Park track in 1:16.

Mr. F. L. Lorillard paid \$35,000 for the French

St. Mortemer, recently purchased by him from Mr. C. C. Chapman.

John Sullivan, D. W. B. Bar, the trainer, received a splendid watch and chain, and Charles Grant, the groom, a ring and chain, and Mr. Vandenberg, Capt. Stans, says he has completed his contract for retaining the management of Maud S. next year.

TRACK TALK.

Parole holds his speeds wonderfully well for an aged horse, as his running of a mile in 1:12 at the track.

There is still talk of shipping some Chicago trotters to California for the winter, but nothing definite has been decided upon.

Col. Conley's black gelding Troubadour has been left at Dr. Herr's place in Kentucky, being slightly affected with the prevailing throat disease.

"South Water Street"—Will you please give the time of first quarter mile that the men left on base, and when the Chicago track?

—Thirty-four seconds.

Blondine and Goldfinger are being driven to racing in the road in Boston by Mr. John Shepard, who has won a mile and a half over the Beacon Park track in 1:16.
